

FIB report from the Kazakhstan Bandy Association (KBA)

Welcome to all the representatives of the Federations and FIB.

Three years of a break due to events in the world had a bad impact on the development of bandy in the world, which affected the number of participating countries. An important factor is the financial conditions of the World championship, which changed in 2023. KBA is very concerned about this, because next year we are likely to lose even more the number of participating countries due to lack of financial resources. For the development of bandy, we want to hold the 2024 World championship in Kazakhstan, where it is quite possible that we will cover the costs of the teams for accommodation and meals, and this will increase the participating countries. It is desirable for us to be in the prizes of this World championship, for the positive approval and financing of the country to hold the World championship in Kazakhstan. Even if it is not a sporting interest, I ask you to treat us with understanding and this is done for the development of bandy in our country and in other countries. In the future, for the development of bandy, we will also go to a meeting to win medals by other countries.

There is also a proposal to make two bronze medalists of the World Championship, which can be reflected in a positive development.

KBA also offers to hold the Asian Championship once every 2 years for the development of bandy in the world, where we can gather 5-6 participating countries (Kazakhstan, Japan, Mongolia, China, Kyrgyzstan, India). You can make an open Asian championship, where you can invite 1-3 countries from Europe. This will give interest and development in Asian countries. To do this, we have created the Asian Bandy Federation (headquarters Astana (Kazakhstan), and we ask you to contribute to the holding of this tournament in the future and to make the Asian Bandy Federation a member of FIB.

Due to the absence of international competitions, Bandy does not enjoy interest in countries, it is necessary to make more international tournaments "World Cup", "European Cup", "European Championship" and so on. It can also be held in the Ring-bandy format.

Thereafter Bandy will be able to get a good development in the construction of indoor stadiums for bandy in each country. This is the first reason why there is no development in the countries and there is no possibility of holding international tournaments. We ask you to consider a development plan for each country, attracting investors for the construction of indoor stadiums. (attracting investors, sponsors, letters to the government of the countries, stadium project).

Attracting global sponsors.

We ask you to consider the possibility of including FIB in the committee
President of KBA – Zhaxymbetov Oralbay.
