WCSM21 – WCS Men 21
WCSM19 – WCS Men 19
WCSM17 – WCS Men 17
WCSW17 – WCS Women 17**

1. Organizer

The FIB EC entrusts a member association with the task of arranging WCS in bandy. The FIB has to allocate the WCS and decide about dates for the tournament according to the FIB Event Planning document.

The organizing association has to apply (using the FIB Tournament Application Form) for the World Championships according to the FIB Event Planning document.

2. Rules for the contest

2.1 The World Championships are played as single matches in the preliminary round.

Playing time is full time as follows:

Full time for each group:

WCSM21	2 x 45 minutes
WCSM19	2 x 45 minutes
WCSM17	2 x 45 minutes
WCSW17	2 x 45 minutes

Playing time will be 2 x 30 minutes (when two matches on one or more days). FIB TC / EC decides if matches can be played 2 x 30 minutes.

Semifinals will be played when four teams or more participate at the tournament. These matches should be played full time. If possible, both semifinals will be played at the same time. If semifinals and final games will be played on the same day, the playing time will be 2 x 30 minutes.

When semifinals will be played: number 1 play number 4, and number 2 play number 3 in the semifinals. The two winners play the final, the two defeated teams play the bronze match. The best ranked teams from the preliminary round play as home team.

The team winning the final becomes the champions.

If, as an exemption, no semifinals will be played:

Numbers 1 and 2 play the final. Numbers 3 and 4 play the bronze-match. Numbers 5 and 6 play for fifth place. The best ranked teams from the preliminary round play as home team.

These matches should be played full time (except: if two matches per day).

There is no day off for rest.

The playing model could be different and flexible, this must be decided by FIB Technical Committee (TC) / Executive Committee (EC). EC if economic consequences.

- 2.2 If a game in the preliminary round ends with a draw and the two teams can end up with the same number of points at the final table, there shall be a penalty stroke competition which is decisive to rank the two teams. If the two teams cannot end up with the same number of points at the final table no penalty stroke competition will be executed.

Penalty stroke competition: five penalty shots for each team (different players). If it is still a draw the penalty shots will continue one by one until a decisive result has been attained (different players (14) excluding goalkeepers).

In the preliminary round the result attained after playing time is counted.

- 2.3 If the preliminary round is played as a double round robin: When two teams play each other two times in the preliminary round, there will be only one penalty stroke competition (according to 2.2). This is decisive in case these teams end with the same number of points.

If there was no draw in the matches between two teams but the goal difference is the same in these matches (2-0 and 0-2). Still, the teams can end up with the same number of points. In this case there should be a penalty stroke competition after the second match (according to 2.2).

- 2.4 The points are decisive for the placing in the preliminary round.

- 2.5 Should the points be equal for two teams the result between these two teams in the preliminary round is decisive. If a draw the result of the penalty strokes is decisive (see point 2.2).

- 2.6 Should the points be equal for three teams the score difference or – if this is equal - most scored goals (after playing time) attained in the matches between these three teams is decisive.
If the rule above in this paragraph can decide about the ranking for all three teams, the following rule is not to be used:
If one team can be separated (out of these three) the result in the preliminary round between the remaining two teams is decisive if the score difference and most scored goals are equal (see point 2.2). Proceed to 2.7.

- 2.7 Should the points be equal for four teams the score difference or – if this is equal - most scored goals (after playing time) attained in the matches between these four teams is decisive. If the score difference and most scored goals are equal for two teams see point 2.2 and 2.4.

- 2.8 Should still no separation be possible, the score difference from all the matches in the preliminary round is conclusive. Teams separated by points 2.5 and 2.6 have their place in the preliminary round but the score difference from the matches with these teams is included in the total score difference for all teams.

- 2.9 Should still no separation be possible, the total amount of penalty minutes from all the matches in the preliminary round is conclusive. 60 Minutes are counted for a direct red card (independent of the used match time).
- 2.10 If it is still impossible to separate the teams, it must be done by drawing of lots.
- 2.11 All matches played after the preliminary round are to be played until a winner is nominated. If it is a draw after playing time the match(es) shall be extended with "sudden death", maximum 20 minutes (2 x 10 minutes), and after that penalty strokes (see point 2.2). Sudden death means that the match ends when a goal is scored.

3. *The age of the players*

A player must reach the minimum age of 15 years before January 1 of that bandy season (example in season 2024-2025: before January 1, 2025).

A player is considered as a Y21 player for the whole calendar year during which the player reaches the age of 21.

A player is considered as a Y19 player for the whole calendar year during which the player reaches the age of 19.

A player is considered as a Y17 player for the whole calendar year during which the player reaches the age of 17.

For the calendar year in this article you have to read the "calendar year in which the bandy season ends". So, in season 2024-2025, read calendar year 2025.

4. *The size of the troop*

4.1 Players / leaders

The size of each national team consists a maximum of 20 persons (16 players and 4 leaders) plus referee(s) to be nominated by FIB RRC.

- 5.4 Final team set-up: A final list stating 16 players plus 10 substitutes is to be sent to FIB General Secretary at least 10 days before the start of the tournament. The players and the substitutes must be the same as in the preliminary list.

Should, at a later date any of the players listed in the final team set-up be exchanged because of an injury (or extraordinary reasons approved by FIB), only the 10 listed substitutes can be used (a confirmation from a doctor or proof is required).

- 5.5 Each player should present their passport (or national identity card) before the tournament starts. Tournament Director (see 8) is responsible for passport control.

- 5.6 Exemptions for players who do not have proper passport (or national identity card) or age.

- Max. 3 players with a different passport (or national identity card), but in the right age group:
 - with a permanent (unlimited) residence permit of the country the player wants to play for;
 - which have a parent/grandparent from the country the player wants to play for.
- Max. 3 players with age maximum one year above age group (but with correct passport, or national identity card).

So in total, exemptions possible for 6 players.

The national association of this player must apply to FIB General Secretary **at the latest two months before the start of the WCS** to get approval of this exemption. With the request, all official documentation/proof that could be needed must be submitted.

An exemption is only given for one WCS. The association must apply for the same player(s) the next year again. FIB wants to know how many exemptions a team is going to use.

The participating nations will be informed about the exemptions at the latest six weeks before the tournament starts.

When more exemptions are needed, countries should seek combinations with other nonparticipating countries to form a combined team.

Extra rules for combined teams

The official application for changed citizenship must be sent by the player to the FIB/EC at the latest July 1st. The FIB/EC can make an exception from this date under special circumstances, force majeure etc. A citizenship transfer is final when the application is approved by FIB (not if or when the player played in the team).
