1. THE COMPLETED SEASON 2025-2026

The ambition for the meeting was to evaluate the completed season. But some Tournament Reports were missing. A reminder will be sent to the Tournament Directors in the beginning of Week 6. Each TD is responsible for submitting his/her Tournament Report with content, based on the guidelines.

2. FIB WCC AND WCS TOURNAMENTS FROM 2026-2027

FIB has two planning perspectives for the tournaments the coming years:

2026-2027

The CC make a proposal for decision in the EC as soon as possible.

2027-2028 and following seasons.

A Working Group on behalf of FIB General Secretary is taking shape to make a proposal for the WCS and WCC tournaments 2027-2028 and subsequent years, based on the assignment.

The meeting then discussed the season 2026–2027. The three nordic WCS Group A Member Associations, Finland, Norway and Sweden, have decided not to participate in WCS Group A tournaments the coming season. The reason for their decision is a tough economic reality and a tournament-free season is considered to provide relief from the financial pressure to be able to fully participate in the 2027–2028 season.

The meeting then looked at the other tournaments for the coming season. A basic opinion is that the Youth tournaments should be organized every season as an important operation for development of future bandy.

To make a successful proposal to EC, we have to look at a few possibilities connected to some tournaments before making the decision. We will have those answers during the coming week and will conclude the proposal in a new meeting.

3. NEXT MEETING

Tuesday 14 April at 14.00 CET.
